EXECUTIVE DIRECTOR'S REPORT

Kevin O'Toole began his report by highlighting the continued growth of gaming revenue in the Commonwealth. The month of March has always been an excellent month for revenue production. Although the revenue figures for March 2022 are still preliminary, Mr. O'Toole reported that Pennsylvania total revenue from all gaming sources reached a new high this past month. Total gaming revenues from all sources for March 2022 exceeds \$463 million dollars, the highest monthly total to date. There are 3 components of that aggregate total that contributed the most to revenue production. First, Table Game revenues at the land-based casinos exceeded \$94 million dollars in March 2022 this was for the first month since Table Games commenced almost 12 years ago that Table Games Revenue exceeded \$90 million dollars.

Secondly, Interactive gaming from slots, tables games, and poker saw a new high of over \$118 million in taxable revenue this past month. Most significantly, was the strength of slot machine revenue. For this past month, Slot Revenue reached \$214 million. Despite all the gambling expansion, in person play of slot machines at the various casino locations in Pennsylvania continues to lead all other categories of gaming revenue. The gaming taxes from in person Slot Machine play allows for the funding of the Property Tax Relief Fund which benefits homeowners throughout the Commonwealth. The economic benefits of the casinos to generate tax revenue for the Commonwealth, to maintain significant employment opportunities to our citizens and to consistently expand and upgrade its products and services in a very competitive market has been both consistent and significant over the years. The casino industry's success in Pennsylvania is accomplished through the outstanding efforts of the casino management teams that guide our 16 casino locations in Pennsylvania.
